

Bike cover

Provides student peace of mind against bike theft from designated cycle storage.

Cover overview

We recognise how important a bike can be to a student whilst at University. We also understand that accommodation providers play an important role in providing dedicated storage for bikes at accommodation and on campus.

Did you know?

- 36% of students own at least one bicycle averaging a value of £332*.
- In our most recent NUS pulse survey, bikes were listed by students as the second most commonly stolen possession**.
- Currently we provide group bike cover to over 125,000 students via 1 in 4 of our partnerships.

Our group bike cover protects against the following:

- Cover for theft or physical damage from a designated cycle storage on campus occurring within the UK.
- Cover for bikes and their fixed accessories belonging to the insured student.
- Tailored cover limits to suit you and your students ranging from £250 up to £500.

Bike cover

Key exclusions and limitations

- Accidental damage or accidental loss.
- Electric/battery powered bikes (e-Bikes).
- Theft, unless in an officially designated cycle storage on campus and locked to an immovable object.
- Bicycles that the insured person has loaned or rented (unless the insured person has been made responsible under the terms of a formal loan or rental agreement).
- Theft or damage to tyres unless the bicycle is stolen or damaged at the same time.

Excess

- £25

“

The bike cover is really important to an ever increasing number of our students as we have very limited parking so having secure bike storage and comprehensive cover gives our students added peace of mind whilst encouraging them to choose a healthy lifestyle for their wellbeing. We really recommend this additional cover. ”
