INCIDENT REPORTING AND MANAGEMENT SYSTEM

REPORT LOST ITMES

REPORT FOUND ITEMS

REPORT AN INCIDENT TO SECURITY

Our aim is to make it as easy as possible for anyone to inform us of any incident you may feel that we should be made aware of but does not require urgent attention

We've also simplified the way you let us know if you have lost or found any items around campus, in the hope that the item(s) may get repatriated with their rightful owners.

The easy to use website means that you can quickly and easily perform all these tasks from the comfort of your own home, or indeed wherever you may be at any time of wanting to report such matters.
